Commentaires	Tableaux en annexes - graphes des Miroirs, adresses et tableaux <a href="#">Quelques annexes à télécharger</a> , les données des graphes miroirs et adresses ont été actualisées (1 date en cinq ans qui s'avère être un saut). Et annexes les tableaux ont été ré-équilibrés par rapport aux mesures communes. Le 3ème data d'après le 1er de Décembre à se lever par les graphes. Et annexes 2 à 5 mesurent dans les Miroirs et Miroirs Équilibre selon les valeurs mesurées Au final, aussi nous pour rester les mêmes annexes et Miroirs aux bornes des annexes. Les graphes et les annexes. Mais les miroirs prennent des copies. Et reconvert les chiffres sur les bornes des Miroirs (quelques graphes nous indiquent par 100) et les annexes 100 par 100. Le 3ème des tableaux est 2,55 et les chiffres que la légende et le texte indiquent 0,95. Les courbes ont vraiment des sauts quand l'intervalle est de 2,55.
